

## Solaris Centre gift card – general terms

- Starting from 01.11.2017, Solaris Centre (register code 10674030; address Estonia pst 9, 10143 Tallinn; e-mail info@solaris.ee ) will issue gift cards (hereinafter: gift card or -cards) with a magnetic strip.
- Gift cards can be purchased from the Solaris Centre information stand (on the first floor at Piletilevi Box Office) in any amount of money in the 10–300 euro range. You can pay for the gift card in cash or with a bank card accepted by the information stand. If you would like to purchase 50 or more gift cards, you should place an order by contacting the Solaris Centre office via e-mail info@solaris.ee.
- The gift card will be activated after its full price has been paid. Inactivated gift card has no value. The gift card is valid 12 months from the date it is activated. The gift card's validity will not be extended. You can check the gift card balance at the information stand or Solaris Centre home page [www.solaris.ee](http://www.solaris.ee). After the validity period has passed, you can no longer use the gift card and the remaining money on the card will not be paid out.
- The gift card can be used for paying in the reach of the sum on the card until the gift card is valid, in all Solaris Centre's places of purchase and service, except at the Solaris Centre parking lot, Itella Smartpost parcel terminals and short-term selling stands in the Solaris Centre's general areas. If the value of the purchase is bigger than the sum on the gift card, it is possible to pay the missing part with other gift cards, in cash, with a bank card or other instrument of payment accepted by the place of purchase or service. You can pay for one purchase with several gift cards. If the value of the purchase is smaller than the sum on the gift card, the necessary purchase money will be taken from the gift card and the remaining sum can be used to pay for next purchase. The sum left on the gift card will not be compensated in money. Adding money on the gift card is not possible.
- Solaris Centre will not exchange the gift card for money or a new gift card. Solaris Centre will not replace the gift card or compensate the money on the gift card, if the gift card has been lost, stolen or damaged. Solaris Centre is not responsible for whatever damages caused to the card's buyer or legitimate user by other people who may have taken the card.
- Issuing Solaris Centre paper gift cards will end on 01.11.2017. Starting from 01.11.2020, all Solaris Centre paper gift cards will lose validity. After that, the paper gift cards cannot be used for paying and unused paper gift cards will not be compensated in money. Until 31.01.2018, you can exchange a paper gift card for a new one at Solaris Centre information stand. The exchanged gift card is valid 12 months from the date of exchange.
- Solaris Centre is not responsible for the consequences or damages that are caused by the gift card's buyer or legitimate user who has not followed the current general terms.
- Solaris Centre has a unilateral right to change the gift card's current general terms by publishing corresponding information 30 days in advance on the home page [www.solaris.ee](http://www.solaris.ee).
